

Dear Parents,

Our classroom walls are expanding! How you ask? We are joining the million of "netizens" (citizens of the World Wide Web) who are using the Internet to access information and resource.

Our classroom web is going to look a little different because we are using a secure environment that requires students and parents to have a username and password to access our site. This is to protect your child, their work and monitor their activities.

The portal that we will be accessing is at www.learningpoint.org. If you have a student in the middle or high school, you are probably already aware of this.

In order to login, you will need to follow these directions:

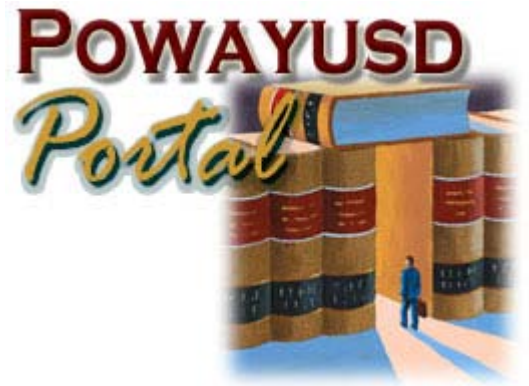

1. Go to www.learningpoint.org
2. As a Student & Parent
type in the username and password
username: full student ID number
Password: birth date in six-digit format mmddyy.

At the elementary level to help support family communication, we encourage students and parents to share a login.

If you have any trouble or concerns, please contact our parent support line at lpthelp@powayusd.com.

Thank you so much,
