

The Audio Editing Window

The screenshot displays the Pinnacle Studio software interface, specifically the audio editing window. The window title is "Pinnacle Studio - Untitled *". The menu bar includes "File", "Edit", "View", "Album", "Toolbox", "Setup", and "Help". The main workspace is divided into several sections:

- Top Section:** Shows the audio clip being edited, named "Cricket", with a duration of "0:00:04.02". It features a waveform display and a playback control area with buttons for play, stop, and a time display of "0:00:04.01".
- Right Section:** A preview window showing a circular graphic with a red dot in the center.
- Bottom Section:** A multi-track timeline. The top track is labeled "Untitled *". Below it, there are tracks for video (showing a panda), audio (showing a waveform), and music (showing "On My Mind" and "Cricket").

On the left side, a vertical toolbar contains several icons. Five red callout boxes point to these icons with the following text:

- Audio Change Clip Properties:** Points to the icon of a document with a pencil.
- Change Volume:** Points to the speaker icon with a volume slider.
- Record Voice-over:** Points to the microphone icon.
- Add Audio CD Music:** Points to the CD icon.
- Create Background Music:** Points to the musical note icon.

At the bottom left, another red callout box points to the speaker icon in the timeline area with the text:

- Audio Toolbox Open:**

The Windows taskbar at the bottom shows the Start button, the Pinnacle Studio application icon, and the system tray with the time "12:13 PM".
