

What makes the Academy work...

The Academy at Black Mountain was created to give students who are committed to doing their very best in an environment where they can reach their true potential. The Academy provides students with an extended school year and four extra hours a week. This allows our staff and students time to delve more deeply into our curriculum and help students develop critical thinking skills. The results of this extended school year are evident in our test scores, and in the success of our students while they are with us and when they go to high school.

The cost of our Academy...

Our Academy program is expensive. In order to offer our extended school year and four extra hours a week we need at least \$150,000 a year. If all families donated their share of **\$500 per student** it would insure the continued investment in our Academy students.

We ask a significant commitment from our students and our staff. Without the financial commitment from our parents we would not be able to offer this powerful program. Your support is essential.

Thanks,

David Hall
