

# Living Science Classroom

## Gardening Needs:

### **Large Canopies to cover picnic tables**

Soil and amendments

Pots and planter boxes

Tools: handshovels, water cans, hose, weeding tools

Miracle Grow Fertilizer

Plants:

Native plants

Bird, insect and butterfly beneficial plants

Herbs

Vegetable plants

Vines

Seeds

**The science teachers are trying to create an outdoor space/classroom for our students. Studies show that students do better in school when they are exposed to nature and the environment. In order for us to create an outdoor living classroom we need your help with the above items.**
